Assessor Comments	215 ewes out of mob of 430 being offered in 2 lots of 215 head and delivery is run out the gate. Australian white/white dorper cross ewe lambs showing good growth and type. Bred on basis of fertility and little wool as possible. Odd ewe has brown head and body colour and odd ewe has black spot on head and body. These ewes have been weaned and handled past week with a Nilverm drench and the last of 5in1 vaccine treatment. These are the lead of lambs dropped with tail end and inferior types removed before assessment. Going on the mothering ability of the ewes this mob is out of these ewe lambs will go on to be good quality breeders. On fattening operation will condition into good quality slaughter stock. Vendor has given high priority to fertility and breeding sheep with as little wool as possible.
