Assessor Comments	A Line of very good quality Egelabra blood wether lambs out of classed breeders. These wethers are the top 800 out of a drop of approx 1150. They are showing plenty of bone and growth for their age with good spring of rib. Observed the odd lamb with dag on the crutch presenting with normal wether horn. These lambs are equally as suited to do up for the trade run on as wool cutters with white bright soft handling wool
