| Assessor Comments  | These 610 July/August drop White Suffolk, Composite cross wether lambs were been weaned on 28th of November and shorn early December. Sired by Waratah White Suffolk rams selected on Muscle, shape and fat, bred out of Composite ewes with an emphases on moderate frame & fertility. Since weaning on the 28th of November they have been introduced onto summer crop and are achieving growth rates over 250 grams/day. Shorn and so close to being finished, these lambs are available to purchase due to lack of rain on summer crops. On an upward trend and shouldn't take long to reach top trade or export weights. Please note: Vendor will give lambs a market crutch prior to delivery |
