Assessor Comments	Offering 200 nicely presented Poll Dorset x & Composite lambs over (run out the gate of 1650). Lambs are fit and healthy, in principally forward store condition. These lambs represent part of the lead of 3500 lambs. Lambs are shorn, are up to date with animal health treatments and have been well weaned. The Goodwood lambs are sired by high indexing Cashmore Oaklea rams and have been proven performers on farm and for previous purchasers. With the hard work done and the breeding and capacity to finish to heavy trade and export weights these lambs are the ideal article to take on to the feedlot, stubbles or green feed.
