Assessor Comments	Ac SANDERS, 620 WS/Mo lambs weighed 42-55kg specific for feeding on. They are only younger lamb unshorn and in good Foward order. They are clean for seed and there has only been a small line of 80 taken off the top. They are fresh, have good depth of body and bred from good muscled ewes and Rams. There was 20% tail drafted off the mob prior to assessment. Buy these with confidence to grow on.
