Assessor Comments	A/C Sanders, 627, Top weighed line of Jul/Aug '21drop wether lambs, 35kg+, that have been running on irrigated Lucerne pasture, these lambs present in fresh forward store condition, buy these with the confidence to have plenty of options for a kill straight away or to grow out to export weight lambs and get another shearing off them (time is on your side with them only being july/ august drops) or purchase for wool grower wethers. these lambs cut 17 micron wool at shearing and are out of large to medium frame ewes. 16 with small scour or small horn. *please note that vendor has another line of lambs in the same sale*
