	B (66-70cm)	90%	Very Good	5%				
Assessor Comments	An outstanding run of the NM & JK Smith, Lambpro blood 2021 drop ewe lambs.This is the annual sell off of the drop, which forms a major part of the families production program. The flock has been purchasing Lambpro replacements for 10 years and have a flock which is incredibly consistent in the visual type produced and boasts high fertility and percentages from marking to weaning. The wether portion easily fit the spec of a high end domestic lamb at an early age and definitely grow out to heavy export weights when allowed. Specifically, this line totals 690 (3 x 230 lines to accomodate buyers wishing to fill a full B Double load) will be sold as a run out the gate. They are very even in frame, shape, head & weight. They are well boned, strong on their feet and have a nice fat cover. They are prime to join within the next 4 weeks for a Jul/Aug lamb and will remain wonderful breeders for the next 5 years. Outstanding quality & highly recommended. 2nds (250) also available in this sale.
