Assessor Comments	A good line of rising 1.5 year old merino ewes, August 2020 drop, BELLA LANA Blood, NSM, December shorn. A small tail has been taken from the draft. These ewes are on the improve quickly after shearing and showing plenty of stretch. They are bred out of a fertile flock with normal scanning percentages over 150%. 10 ewes noticed with small horns and odd ewe a bit dirty around tail from fresh pick. Ideal opportunity to secure a bdouble lot of maiden ewes that will continue to grow into good frame plain bodied ewes ideal to join to ram of choice in the future.
