Other Joining Details	Joined to Marocara Poll Dorset rams for 6 weeks for indicated lambing dates of 20 March thru 3 May
Assessor Comments	A very nice line of scanned in lamb 1st X Ewes. Assessed as a mob of 300 and offered in two equal lots of 150. There are 49 ewes identified as carrying multiples over the total mob - these will be split as close to half and half if different buyers purchase. Scanned up to the Marocara Poll Dorset rams for a nice tight 6 week lambing thru the second half of March until the start of May. There has been an exceptional amount of rain throughout Spring and Summer at Oberon - skins on these ewes do appear affected to varying degrees and would require jetting and a crutch prior to being put out to lamb. Ewes with plenty of style, well worth considering.
