Assessor	Continuously running with Annalara rams whilst running in there breeding flock, as per the normal Mt View joining program.
	The Mount View ewe lambs which have all been 100% individually weighed through auto drafter. These lambs weighed between 52.5kg and 70kg to average 56.8kg. Six hours off feed. These lambs are really preforming on fresh feed after an excellent season. Ewes have had the opportunity to the white dorper rams up until assessing on the 21/1/22. Ewes should have joined up well, odd ewe starting to show in lamb. Buy with confidence they are from an outstanding commercial white dorper flock where no expense is spared on the stock. Previous buyers have been very happy with lambs. 2 ewes noted with a slight caramel shade on head. Younger sisters also in same sale.
