Assessor Comments	The Mount View ewe lambs which have all been 100% individually weighed through auto drafter. These lambs weighed between 42.5kg and 52kg to average 46.92kg. Six hours off feed. These lambs are really performing on fresh feed after recent rains. Ewes have had the opportunity to the white dorper rams up until assessing on the 21st of January. Ewes should have joined up well considering they have never had a set back. Buy with confidence they are from an outstanding commercial white dorper flock where no expense is spared on the stock. Previous buyers have been very happy with lambs. 2 ewes noted with a slight caramel shade on head. Older sisters in same sale
