Assessor Comments	A great opportunity to purchase a young line of Mumblebone blood merino ewe hoggets. Shorn and ready to hit their straps after a very wet summer period. These ewes are on the do after being shorn 3 weeks ago and will continue to put weight on as they head towards joining time. Vendor bred & gudair vaccinated. Tail draft removed. Please note the 'Merino Select' Genomics results attached in the photos, taken from the 2021 drop merino lambs (younger siblings to this sale lot) at Heatherlie, indicating the positive genetic progress in the flock.
