Assessor Comments	A very tidy line of ewe hoggets, ranging from 47 to 80kg, averaging 57kg, 2 hours off of feed. These ewes have been sired by Dalveen rams which are well known for their growth potential. The Vendor always purchases his rams out of the top end of the Dalveen sale. There has been a tail of 25 ewes drafted out of the mob, keeping the line neat and tidy. A very good line of quality woolgrowers. A sample of approximately 20 were all mouthed as two teeth and will present as mainly good medium frames in strong forward store condition. Being September shorn they have a start in the jacket on their backs.
