Assessor Comments	Excellent line of vendor bred ewe hoggets. These ewes are a complete drop from the older ewes in the flock and are surplus to requirements. They are non mulesed Baderloo Blood, very plain bodied medium to large frame ewes. October shorn at 10.5 months and cut 5.2kg of wool at 114mm length. Roughly 30 of these ewes have lambed last year but have weaned lambs, hence a few lighter ones. Overall they are a great line of ewes that would fit into a non mulesing operation and will perform well with high fertility and lambing percentages.
