Assessor Comments	A neat well-bred line of future breeders. 347kg at delivery, weaned and vaccinated. All the hard work has been done with this line of heifers. Would suit somebody increasing their breeder herd or wanting to continue on the fattening process. These heifers are bred out of Angus cows and were sired by Ultrablack bulls, resulting in a soft bodied weaner. Buyers please note; one heifer has a non-active small pink eye scar in one eye.
