D	15%

Temperament	Yards	Crush	Paddock
	Quiet: 61 head Slightly Stirry: 2 head	Quiet: 63 head	Temperament not assessed in Paddock
	Calves have only been weaned 1 week and were a pleasure to draft and assess. Walked through the race and stood on the scales with a minimum of fuss. Exited the crush in a calm, steady fashion. Once let out of the yards quietly walked back to their paddock. Would have no hesitation recommending the temperament of these calves.		
Handled With	Bikes , Vehicles		
Assessor Comments	Lead draft of the Darlow Family Steer Weaners. Heavy boned, Angus Composite X Steers that offer the best of both worlds carrying the black coat and all the Hybrid Vigour of the Hicks Beef Composite blood to give them that extra punch. Properly weaned steers that are showing great growth for age at only 8-9 months and have a fantastic temperament to boot. Well bred steers that will perform either on grass or grain. There are around 35% of these steers with varying patches of white underneath and 1 Red steer in the draft. Steers show great muscle, bone and softness and will make outstanding kill bodies. All calves weighed above 330kg at Assessment. Steers are grass fed and antibiotic free and vendor can provide a PCAS Non-Certified Supplier Declaration on request. Vendor also has a second draft of 40 steers and 8 heifers in this same sale.
