	D	30%	
Temperament	Yards	Crush	Paddock
	Quiet: 34 head Slightly Stirry: 6 head	Quiet: 38 head Slightly Stirry: 2 head	Temperament not assessed in Paddock
	Calves have only been weaned 1 week and were a pleasure to draft and assess. Walked through the race and stood on the scales with a minimum of fuss. The odd steer was a bit flighty when singled out but settled quickly once back with his mates. These are the younger calves of the draft and will improve with handling.		
Handled With	Bikes , Vehicles		
Assessor Comments	Second draft of the Darlow Family Steer Weaners. Heavy boned, Angus Composite X Steers that offer the best of both worlds carrying the black coat and all the Hybrid Vigour of the Hicks Beef Composite blood to give them that extra punch. Steers show great growth for age at only 8-9 months and will continue to gain weight going forward with the right conditions. Well bred steers that will perform either on grass or grain. There are around 35% of these steers with varying patches of white underneath and 1 Red steer in the draft. Steers show great muscle, bone and softness and will make outstanding kill bodies. Steers are grass fed and antibiotic free and vendor can provide a PCAS Non-Certified Supplier Declaration on request. Vendor also has a lead draft of 63 steers and 8 heifers in this same sale.		
Assessor	Matthew Pitzen (Level 1 Accredited) Phone: 0428 362 030
