	Calves have only been weaned 1 week and were a pleasure to draft and assess. Walked through the race and stood on the scales with a minimum of fuss. The odd heifer was a bit flighty when singled out but settled quickly once back with her mates. These are the younger calves of the draft and will improve with handling.		
Handled With	Bikes , Vehicles		
Assessor Comments	Small line of Vendor Bred Heifer Weaners surplus to requirements. Please note that there is 1 Freemartin Heifer in this draft that the purchaser has the right to leave out if so desired. These calves are mostly out of 1st calving heifers and have the genetics & breeding to grow out into big, roomy females. Heifers are grass fed and antibiotic free and vendor can provide a PCAS Non-Certified Supplier Declaration on request. Vendor also has 103 Steer Weaners in this same sale in 2 lines of 63 & 40.
