| Assessor Comments  | A very good draft of Angus/Friesian cross feeder steers ready to take forward onto grain or finish into other programs. Steers have plenty of length and shape for the breed, coming out of good framed Friesian cows from a Western district breeder and by the AI sire Paratrooper P15. Please note there are 5 steers with warts present on their neck, but is not detrimental to the animals performance. These steers would be ideal to finish on grain or take on for other export markets. |                |                                     |
