Assessor Comments	Great line of HGP treated feeder Steers. Currently gaining 1.4kg per day and will continue to do very well in the right environment. Steers have been on grain from day one and are in exceptional condition for their age. This is the perfect line of feeder steers to suit a feed job or to put out on pastures to continue their growth pattern. All steers were treated with Synovex S HGP between 30th September and 28th October. Few Steers have been treated for pinkeye, in assessors opinion it is minor. 79 of the same steers are listed in a different lot of this same sale.
