Assessor Comments	A line of 11 large frame friesian steers that have been drenched with Flukazole and had their 7in1 booster shot in september. These steers are well grown and showing plenty of bone and frame for their age, and have never been with out nutritious feed and would continue to stack on the weight. Please Note; some have been treated for pinkeye in the last month and will have a small amount of scarring. The vendor is also offering 2 other lots in this sale as well.
