Assessor Comments	A line of vendor bred friesland steer calves that have had a quality start having been reared alongside replacement Heifers on DASCO BioBoost probiotic and fortified Max Care ultimate milk powder. The steers have been vaccinated with piliguard, a multimin an both their injections of 7 in 1 and were backlined with Arrest. These calves are displaying plenty of bone and frame would grow out into big heavy bullocks. The steers are from a 450 stud registered herd of large frame friesland cows backed by over 60 years of AI breeding. All the steers have been gas dehorned and supplement with Nutrimol, so all the work has been done for you- just show them the feed and they will do the rest.
