Assessor Comments 7 Weaned vendor bred friesian and friesian X steer calves that have been well reared and are on the do. The calves are from the vendors herd of 300 friesian and x bred cows, with the vendor using Ai bulls for the last 20 years. The calves have

already been weaned, marked, gas de-horned and vaccinated for your convenience. These calves would make ideal cattle to turn out and grow into larger steers. An opportunity to purchase young cattle with all the work already being done for you - just turn them out and watch them grow. The vendor is also offering another lot in this sale.
