| Assessor Comments  | 14 Friesian and Friesian dairy X steers A perfect line of grass eating steers, all are nice and quiet bucket reared and well drenched. Steers show a good amount of growth and are at the right age to be put in a paddock and watch grow To be noted there is a bit of ringworm in the Friesian steers and a few warts                                                                      |
