Assessor Comments

A very well bred line of small to moderate framed young Heifers that present in strong store to forward condition with bone and substance. Well weaned and handled through yards with all vet treatments initiated. These Heifers present a grand opportunity to secure a one mark line of young Females bred out of large framed Angus Matrons. There was a Heifer noted as having a white belly in the draft, with the vast percentage of the heifers yet to clean up from their winter coat This line represents a group of heifers weighed from 192 -229 kg and is the lighter weight draft of a large run of Vendor Bred Heifers classed off purely on their weight.
