Quiet: 15 head	Quiet: 13 head Slightly Stirry: 2 head	Temperament not assessed in Paddock

These cows were good to handle in the yards. A couple of cows did become slightly agitated when separated from their mates but did settle once they were back with the mob.

Handled With	Bikes , Dogs
Assessor Comments	A good quality line of Droughtmaster & Droughtmaster cross cows with calves at foot. These cows have been continously joined to Droughtmaster bulls so some should be 3in1 packages. They still have plenty of life ahead of them so would make ideal replacement breeders or ideal articles to rear the calves & trade the cows. Please note calves have been NLIS tagged but not cut or branded. Please not 1 calf has a blue eye which should heal without any future problems. Vendor also has 48 PTIC cows in the same sale.
