Heifers flow through the yards well the odd heifer stirs under pressure. At assessment heifers ran through race twice and didn't cause any trouble. Heifers need steadying through gateways.

Assessor Comments	Buyers 3 decks of PTIC Brahman & Brahman X heifers that are best described as medium to large frame and in forward store to prime condition. Heifers are PTIC to VGQ Angus bulls 2-7 months with 80% 4-6months in calf. This line show plenty of bone, depth & frame for age and will be ideal future breeders. At assessment 1 x heifer noticed with a very slight twist in nose but not seen as detrimental. This is a line of heifers with a good calving window that will produce good soft quality calves.
