Assessor Comments	Buyers here is an A grade line up of vendor bred VGQ PTIC cows that will make ideal replacement breeders as offered as a genuine herd dispersal sale. These cows show very good feminine characteristics and show plenty of length, depth and growth. Cows have been vet preg tested in calf with 53 cows testing 4 months plus with 11 cows testing 2 to 4 months (Vet certificate available) to Charolais and Shorthorn bulls. Buyers please note 1 cow has a capped hip and 4 cows with needle lump on neck and 2 cows with old blight scarring at time of assessment. Cows have recently had big weaners pulled of them and done a tremendous job of their calves. This is a line up of cows that have had many years of selective breeding in place to get this draft of cows. * Buyers please note vendor has another 2 lots of PTIC heifers in the same sale.*
