Assessor Comments	Buyers here is an outstanding line up of vendor bred VGQ PTIC Charolais infused heifers that will make ideal replacement breeders as offered as a genuine herd dispersal sale. These heifers show very good weight for age and stand on plenty of bone and will grow out to be very large framed cows while still showing good feminine characteristics. Heifers have been vet preg tested in calf with 22 heifers testing 4 months plus with 10 heifers testing 2 to 4 months (Vet certificate available) to Gunda Park Angus bulls. This is a line up of heifers that have had many years of selective breeding in place to get this quality run. * Buyers please note vendor has another 2 lots in the same sale.*
