Assessor Comments	Here is a great opportunity to purchase some value for money Vet tested PTIC Females in calf to an Angus Bull. The Cows are of varying in age (only 3 older than 4 tooth) but all having the ability to have many more calves for years to come. They have had the 2 doses of 7 in One and also Pestiguard. They present in strong, fresh healthy condition and all going well some should deliver a very valuable Angus calf soon! Although being NT Bred with some showing some attitude they do settle in the paddock and go about their routine. **Please note there is a couple showing some blight & slight weeping but not detrimental. One of the cows as seen in the photos has a slightly bent muzzle but this is not affecting her in anyway! There is also another (as per photos) has a dog bitten tail but is an old injury an also not detrimental to the female. There is a couple with a slightly chewed ear as well, but also not detrimental**
