Very good to handle through yards and crush. Heifers had been preg tested prior to assessment an still worked well in yards and crush.

Handled With	Bikes , Dogs
Assessor Comments	A very good line of Angus, Ultrablack cross heifers PTIC 1-4 months to Angus and Ultrablack bulls purchased from Burenda and Palgrove. 2 Angus and 2 Ultrablack bulls were used in the joining of these heifers. Heifers are doing very well on good feed and will grow out and be much heavier when due to calve. Very good temperament. Ultrablack heifers are low content heifers. All heifers show good bone and type and good feminine character. 2 brands in these heifers purchased ex local districts. Note: 9 heifers carried white underneath, 1 heifer birthmark on shoulder, 1 heifer observed with old injection lump, 2 heifers small warts on eye, head. Also Note: 16HR curfew off feed and water when assessed. A very good line of heifers that would be very good basis for a breeding enterprise. Vendor has sisters (51hd) preg tested not detectable in the weaner sale.
