Typical northern bred Brahmans. They have been handled a fair bit since arrival at Barraba. The most stirry cattle have been removed. These cows move quickly through the yards and can stir up under pressure but are generally ok to handle. Some cows stirred up in the crush at preg testing but settled down once back with the mob.

Handled With	Bikes , Dogs , Horses
Assessor Comments	An excellent line of young 2nd calf Brahman and Brahman cross cows PTIC to Bowen Angus bulls. They were joined from 30th Sept til 23rd December. They had cracking calves weaned off them just two weeks ago. These heifers were purchased ex Walhallow Station and are all one mark. There are 194 in the mob which will be sold as a run at the gate (65hd, 65hd and 64hd). Throughout the whole mob 12% are #8s with the remainder being #9s. They are well grown, framey cows that are proven breeders.
