Temperament

Yards	Crush	Paddock
Quiet: 10 head Slightly Stirry: 2 head	Quiet: 10 head Slightly Stirry: 2 head	Temperament not assessed in Paddock

Heifers were generally good to handle in the yards. Most did become fidgety when being pregnancy tested but that is quite normal behavior. Nothing that could be assessed as stirry though.

Handled With: Bikes

Assessor Comments: Angus cross heifers that are all PTIC to LBW Angus bulls. Just a small lot that have been drafted into basic breed type and are the progeny of some cows that were initially purchased as PTIC. Useful young heifers that will provide many years of breeding and allow restockers an opportunity to replenish depleted herds from the 2019 drought. The seasonal conditions look to have turned around and the cattle market has never been in a stronger shape so buy these with confidence. There are also two other lots from the same property in this sale to fill up a load.
