Temperament	Yards: Quiet: 38 head; Slightly Stirry: 7 head Crush: Quiet: 35 head; Slightly Stirry: 10 head Paddock: Temperament not assessed in Paddock Heifers were generally good to handle in the yards. There were a few that did react negatively in the crush, probably still have a vivid memory of when they were pregnancy tested the week prior. Nothing that could be assessed as stirry though.

Assessor Comments	A consignment of very good quality Crossbred heifers that are all PTIC to LBW Angus bulls for your competition. These heifers show very good volume and weight for age. Young breeders are always very hard to access and there are still many producers needing to replenish breeding herds from the 2019 drought. The cattle industry looks to be in great shape and could be for quite a while to come. These are an investment to either retain for further breeding purposes or to calve out as a trade opportunity. All the hard work has been done with breeding, weaning backgrounding and mating so just sit back and let them calve out now. I did note a few with very light warts and also a needle lump but definitely no issues expected here. Also one heifer with only a very slight cloudy blue eye but hardly noticeable.
