Assessor Comments	On offer 32 very good Droughtmaster heifers PTIC 4 - 6 months to low birthweight Karoo Angus bulls. Heifers were purchased out of The Eddington droughtmaster studs commercial herd in 2021 as light weaners and are all one line. These cattle have done very well since arriving at Milaw, they are well educated quiet Heifers that will make exceptional breeders. Heifers of this quality would be an asset to any breeding herd and will not disappoint. Please note 3 heifers are outside the joining bracket due to one bull getting back in they are 2-3.5 months PTIC. 31sisters in the same sale.
