Temperament

| Yards | Crush | Paddock |
|---|---|---|
| Quiet: 4 head | Quiet: 3 head<br>Slightly Stirry: 1 head | Temperament not assessed in Paddock |

These heifers were a pleasure to handle right throughout the drafting and weighing process. Each heifer stood still on the scales in the crush and waited contently then walked on when asked to move. 1x heifer got a bit agitated at mouthing time but is as expected. Not docile as they moved off when asked without hurrying at anytime

| Assessor Comments | A small but outstanding line of quiet station mated "Pibbon" bred Red Angus heifers presenting in fresh forward/prime condition. These heifers are usually retained within the herd but due to an out of sequence joining they didn't fall within the management program. Heifers were A'ID on the 30-09-21 and have had red angus bulls running with them for 82 days in which the vet deemed empty or under 6 weeks @ scanning time on the 13-01-22. Since scanning date the Heifers have been back continuously running with a commercial Red Angus Bull that was selected on his low birthweight traits. The Danson Family are renown for breeding proven quality genetics that always excel through feedlots or market places in which they pride themselves on being very selective on temperament. These Heifers will be an attribute to any intended purchasers breeding program. BUY WITH UTMOST CONFIDENCE. note there will be 2 vendor bred bulls from same vendors place in the same sale. |
