	An excellent mob of station bred cows to handle. Were easy to work around yards. Absolutely no fuss through entire process		
Handled With	Dogs , Horses , Vehicles		

Assessor Comments	A very tidy mob of PTIC Angus cows. A total mob of 90 head being offered in two even double deck loads of 45. Cows have been PTIC in calf to be 4 to 6 months pregnant so should calve approx May through July. Cows well and truly worth considering to bolster any breeding operation will a good calving date to suit most. Very well handled and educated were a pleasure to work with. Principally on the younger end of the bracket with 60% of the mob 2016, 2017, & 2018 drop cows. The station has been on Lawson and Paringa Angus bloodlines for some time. Cows of a quality, type and temperament that you would be happy to drop into just about any breeding operation. Please note only two deck access to property could be put together into a road train if heading in the right direction. Consider closely.
