Large	100%	Good	100%	Fwd Store	100%

Temperament

Yards	Crush	Paddock
Quiet: 14 head Slightly Stirry: 2 head	Quiet: 10 head Slightly Stirry: 6 head	Temperament not assessed in Paddock

Heifers are from a range of sources. The manager uses low stress handling techniques and as such heifers are generally quite sensible. The heifers were pregnancy tested 4 days prior to assessment and as such were a little unsettled with returning to the crush. Generally the heifers settled well whilst in the mob and during processing were fine. Temperament of the heifers in there groups is evident in the video attached.

Handled With	Bikes , Dogs , On foot , Vehicles
Assessor Comments	On offer is the lead line of 16 x PTIC Angus Heifers from Greenhills, Exeter. Purchased from various sales in late 2019 and 2020, the heifers were purchased to background, join and sell PTIC. The heifers were joined to Bongongo Angus Sires and scanned by Southern Highlands Veterinary Clinic. This lot was identified by the vet to calve in the first 4 weeks of the calving period. A small percentage of heifers have cloudy eyes, deemed not detrimental. The odd heifer has a splash of white around the udder. Please note: the vendor has another 4 lots of PTIC Heifers on todays sale.
