Assessor Comments An excellent line of PTIC Angus heifers. These heifers show great frame, type and breed quality. The vendors have done all they can to set these heifers up for success and ensure buyer confidence. They have had all the necessary health treatments, are in ideal condition for this stage of the pregnancy and these heifers are in calf to low birth weight bulls with an average birth weight EBV in the top 10% of the breed. To top it off they are due to calve in a tight 3-week window. This is an opportunity to secure a line of heifers that will mature into outstanding matrons and continue to breed high quality calves for many years to come. PLEASE NOTE THE VENDOR HAS 3 LOTS OF HEIFERS AND 4 LOTS OF COWS IN THIS SALE.
