Assessor Comments	16 PTIC Cows acc. "Rosedale Nominees" - Property sold forcing herd dispersal. 5 - 9 years old. Cows were joined on the 20/07/21 to the 27/10/21, to CC late April. Please note calves have been weaned off cows a week prior to assessment thus reflecting the condition of the cows. These females have all been PTIC to Fernhill Angus bulls. Selection of bulls is a stringent process for the vendor with low birth weight, gestation, milk, growth, structural confirmation & temperament are all a key focus. 20% of cows were mouthed & of those one was broken - please refer media. At assessment four cows were noted to having old pinkeye scarring. *Vendor offers another 4 lots in same sale*
