Handled With	Bikes , Vehicles		

Assessor Comments	PTIC EU Rennylea Angus blood heifers, they are 19-20 months of age, scanned in calf to Rennylea Angus bulls from 2-3 months in calf. These heifers are only being offered as they are surplus to requirements, they were scanned into the third joining cycle, 40-60 days in calf at time of scanning, with only heifer scanned into the first cycle have been retained in the herd. These heifers will develop into medium/large framed matrons. Opportunities to acquire heifers of this quality don't come around everyday, and will not disappoint. Vendor is also offering in this sale another 20 PTIC Rennylea Angus Blood heifers scanned 65-80 days in calf. Buyers please note 4 heifers with a splash of white on their udder. 1 heifer with a bob tail and 1 heifer with blue eye, see media. At the request of the successful purchaser these two heifers can be removed at delivery.
Assessor	**Zach Weidner (Level 1 Accredited)** Phone: 0488 289 137
