| Assessor Comments  | 45 good framed Fresian steers, reared well and in healthy sound condition, all are good true black and whites and are out of a good Holstein Fresian herd. All are de-horned and have had there health treatments up to date. These should have the ability to grow out to heavy weights with ease.                                                                                          |                |                                     |
