Handled With	Bikes , On foot , Vehicles		
Assessor Comments	A quality line of Vendor Bred "Mead Meadows Angus" weaned heifers, born 15/3/2021 onwards, Angus heifers calves sired by Genises, Leading Edge, and Mead Meadows M12, that are a true credit to their breeder. The cattle were yard weaned on the 06/12/2021 with the vendor handling the cattle regularly. Temperament is quiet and easy to handle through the yards. The heifers are displaying a great amount of frame and bone with plenty of shape to them as well. These steers are ready to take the next step and perform in any situation with all the hard work already being done by for you. The heifers are from a cow herd based on Bongongo,, Merridale, and Forres Angus studs with their grandsires being Mytty in Foucs and Ardrossan Admiral. Please note a couple of heifers have old pink eye scaring.
