Assessor Comments	61 Quality Vendor bred steers. Annual sale, complete drop. The calves were weaned on the 15/12/2021, being 14 day Yard weaned and handled through the yards everyday. The steers have plenty of bone and shape to them, while still showing signs of softness and finishing ability. These steers are ready to boom with all the hard work already being done for you, just show them the feed and watch them perform. Bulls selected on 400 & 600 day growth & IMF & Fat. Please Note: A % of weaners with pinkeye have been treated every 2 days and patched to contain the spread, and a % of weaners have pinkeye scarring not thought to be detrimental to performance. Sisters also in same sale
