Handled With	Cattle are all bucket reared and easy to handle Bikes
Assessor Comments	These 6 month old calves have received Multimin, both 5 in 1 vaccine shots, cydectin worm drench & currently being supplementary grain fed, with good quality cereal hay, due to a lack of paddock feed. These heifers would go on to make excellent vealer mums as they are very quiet and easy to handle. These cattle present excellent body condition & are a credit to the vendor.
