	The TRT steers are great to handle in the yards or paddock. They are rotationally grazed and are moved regularly which has made their temperament very quiet.			
Handled With	Bikes , On foot , Vehicles			

Assessor Comments	These are the top draft of Angus steers. They are by top quality Temania bulls out of Temania blood cows. The temperament of these steers is very good due to them being handled regularly. All the hard work has been done with these steers. They have put on between 1 to 1.5 kg a day in the last 40 days. Show them some good feed and they will develop into heavy steers on grass or grain. A small tail has been removed. There are 6 steers with some white on the belly and an odd steer with old pink eye scarring. There was no active pink eye at assessment.
