Assessor Comments	The annual draft of the McGahy Pastoral calves. These calves were yard weaned and have been on silage and improved pasture for six weeks. They have continued to go forward the whole time. The calves handled very well throughout the assessment and the temperament of them is a credit to the way the McGahy family handle their stock. There is no expense spared on the bulls which are selected for ease of calving and growth and this shows through in the weight for age of these heifers. With the breeding and genetics behind them, they would be an ideal beginning or addition to an autumn drop program. The heifers have a simmental infusion but are all black in colour with 6 having some white underneath and a small tail was removed from this lot. Please note the vendor has two drafts of steers in the same sale.
