Assessor Comments	88 very good quality 1 Brand predominantly Santa Gertrudis PTIC cows sold as part of an entire herd sell down. Cows were Vet tested and 48 cows were 7 & 8 months, 18 cows 6 months and 22 cows were 4 & 5 months in calf to very good quality Gyrenda Santa Bulls. The Majority of the cows have good bone, length and depth and will fatten into big heavy cows over 500 kg. 65 of the 88 cows are younger than 8 years old so still have plenty of breeding left in them. I mouthed the cows over 10 years old and only had 1 with a broken mouth. There is approximately 43 head that would be by Brahman Bulls and therefore showing some hump. There is approximately 8 brindle, 30 light red/yellow, and 7 with white under belly. A few cows had old fly bites and 1 young cow had a grapefruit size navel lump. Manfred is Prickly Acacia free. Cows will be cleared of tick on farm or in Julia Creek at vendors expense. Please note Vendor has 2 decks of Santa Gertrudis mixed sex weaners in weaner sale.
