Assessor Comments	Buyers here is a genuine line of one brand brahman breeders. These cows have a wealth of brahman breeding behind them from generations of careful breeding measures with a strong focus on fertility and productivity within the herd. These as you will see have stud brands, however were only used commercially at Kaiuroo to breed their offspring of steers and heifers that have traditionally been fattened or sold as feeders. These breeders do produce high quality cattle that go on to perform. A very functional and maternal line of females that present with sound udders. The vendor has chosen to offer in 3 deck lots and loading them very comfortably at 14x14 per deck. Two other lots in the same sale.
