	Cows handled well during assessment, some cows became slightly agitated in the crush during the preg testing but settled once released in a bigger yard.			
Handled With	Bikes			
Assessor Comments	Buyers here is a small line of PTIC middle aged cows. Genetics based around Te Mania, Ardrossan and Speriby North Angus studs. These middle aged cows stand on good bone, legnth, depth and are feminine. PTIC 4 to 5 months in calf to Te Mania and Speriby North Angus bulls. These cows would fit into a breeder program with ease or a smaller line for someone to get started with. Please note small percentage of cows have an old blue eye scar not seen to be detrimental.
